SUMMARY

Web developer with over a year and a half experience in developing and updating web platforms. A team player with strong creative and analytical skills. Skilled in debugging, problem-solving, and working with teams to deliver the best possible result. Who is looking to expand and develop existing and new skills in a practical environment.

Work Experience

Zymplify

Junior Web Developer — APRIL 2024 - OCTOBER 2024

- Worked with a team to update and implement new features across multiple platforms, using PHP, CSS, AJAX, jQuery, and JavaScript. Increasing overall efficiency by 8%.
- Created and modified database tables using SQL and MySQL
- Successfully implemented a round-robin system for form-based candidates, reducing candidate processing times for clients by at least 50%.
- Established round robin background processing for lists. Allowing for users to use the platform while processing is being completed. Increasing user productivity by 75%.
- Used Git for version control, including branch creation, as well as used docker for testing and local server usage.

WE ARE LANDED

Junior Web Developer — 2023 - APRIL 2024

- Worked with manager to update and implement new functionality across multiple platforms using PHP, CSS, AJAX, jQuery, and JavaScript. Increasing overall efficiency by 40%.
- Implemented auto-reports using PHP, JavaScript and MySQL, including left joins, making client workflow easier to manage by 75%.
- Upgraded platform design and functionality by changing to Bootstrap 5, improving the overall look by 30%.
- Provided online support using Zendesk, including bug fixes and client requests.
- Used Git for version control, including branch creation, as well as used docker for testing and local server usage.

SAINSBURYS

Online Shopping Assistant — 2020 - 2023

- Working as part of a team going around the store collecting products ordered by customers online.
- Assisted the General Assistants to load the vans with online orders to increase efficiency.
- Organise and restock shelves. This also included date rotation.
- Worked from the back of the online vans to help customers who had order via click and collect.

ARGOS (ANTRIM)

2018-2020

Retail Assistant

- Worked face to face with customers processing their orders including offering them product care insurance and company finance options.
- Processed refunds to customers when applicable.
- Assisted customers on the shop floor by answering queries and checking stock amounts.
- Worked in warehouse as part of team to bring in delivery and to assign electronically items to locations within store.

MCKAYS PHARMACY(EAST BELFAST)

2016

Data Technician

- Worked with Microsoft Excel to organise products by product number and name. This includes removing products from database that are no longer sold and merging duplicates to better organise the database and increase efficiency.

Warehouse Worker

- Worked with warehouse team to find and collect items for online customers. This also included boxing these items up allowing them to be ready to be shipped out.
